Our annual Norlin-Dental calendar is here again

Hello Dental Health Team!

This is a good time to thank our customers for their support during the year. Thank you and we wish for you the very best of health, happiness and success for the coming year. We also hope that many more dental health teams will discover the advantages of using **NB NOVA** single-use FG-burs. They make dental work less taxing and safer for everyone in your dental rooms. **Low prices & high quality** make the **NB NOVA** single-use DIAMOND FG-burs outstanding overall value!

Let's boast a little now when we can! We are very proud and also a little surprised to find that today our **NB NOVA** burs are the only burs currently listed with its **product name** on the Therapeutic Goods Administration's dental devices data base.

Search and examine the T.G.A. database listing for **BUR DENTAL** at:

www.T.G.A.sime.health.gov.au/SIME/ARTG/ARTGPublicWeb.nsf

Such prominent T.G.A. listing does not come easy because it requires a very strict assessment of obligatory and detailed documentations. We feel this may also be the reason why our **NB NOVA** burs are the only burs that can be identified by its **product name** on the A.D.A. information site.

Please search and see under BURS at: *www.ada.org.au/vde*

Are YOU really getting T.G.A. approved dental burs?

We hope you all will enjoy a well-deserved restful holiday break with family and friends and we look forward to serving you in the New Year 2006.

Finally we would like to inform you that our office is closed for a short period between 19th December and the 12th of January 2006

From all of us at *www.norlindental.com* we say,

Merry Christmas and
a Happy New Year 2006
